

CITY ACCESSIBILITY ADVISORY COMMITTEE

The City Accessibility Advisory Committee was created in 1987 to address accessibility concerns in City-owned Buildings and Facilities and to work with the various City Departments to eliminate barriers faced by persons with disabilities and elderly persons. With the passage of Ordinance # 9779 in 1989, the committee began addressing compliance with the ordinance by recipients receiving financial assistance from the City. The committee expanded its advisory capacity with the passage of the Americans with Disabilities Act in July 1990. Today the Committee continues to address disability concerns regarding employment, transportation, construction design, sensitivity training, and mobility issues. The Committee also hears grievances by individuals with disabilities against City Departments and employees.

The City Accessibility Advisory Committee is comprised of nine members, one for each Representative District and one for the Mayor. The members serve a two-year term and can be reappointed for a second term.

The committee meets on the 4th Thursday of the Month at 2:00 p.m., in the 8th Floor Conference Room in City Hall.
